You can also find LUX maintenance team, which is responsible for general maintenance and the common areas, in the building. Even the Department of Educational Sciences uses some offices in the building.

More than 400 employees and 1 584 FTE students work and study at LUX.

Shared services and organisation at LUX

The departments, the Humanities and Theology office and libraries, the IT unit and the Humanities Lab are all independent units. The maintenance team at LUX takes care of the common areas (seminar rooms, staff dining room, foyer, student kitchen, etc.) and the shared services of the building, and has overall responsibility for the physical building and its security. The caretakers’ office, the reception and the booking of premises are all included in the responsibilities of the maintenance team.

The building is managed by a board with representatives from all departments/units in the building. There is also a student and a doctoral student representative. The board convenes a couple of times a year and is chaired by the director of the maintenance unit, Charlotte Tornbjer.

LUX – from A to Z

Access system
There are no keys at LUX. To access common seminar rooms, your office and other areas you need an LU card and PIN. These can be retrieved from an LU card provider – UB Media is the nearest one. For opening hours, see https://lukortet.lu.se/en/.

You will always have access to LUX with your card and PIN, but to access, for example, your office the card must be refreshed every day by scanning your card at the readers located at all entrances. When refreshing your card for the first time: be careful to keep the card still until you see a green light. This can take up to 30 seconds. If the update fails, you must wait 24 hours before trying again.

If you lose your card, it will automatically be blocked when you get a new one at one of the card stations. In case you forget your PIN code you can look it up by logging on to this website https://lukortet.lu.se/en/mypage with your Lucat userid.

You can find more information about the access system at the intranet

It is important that everyone helps out and makes sure that all windows and doors are closed when leaving the workplace. Doors must not be propped open or damaged. We do not want unnecessary (and costly) call-outs from the security company.

Bicycles
There are four university bicycles at LUX which all staff can borrow. The keys can be retrieved from the reception. The bicycles are parked in Building D, the recycling building, which must always be locked manually using the LU card.

Booking premises
All premises are booked via TimeEdit. Those in charge of timetabling will receive information about when they need to submit their booking requests to LUX’s central timetabling administrators, Agnes Borg and Ulla Rönbeck at schema@lux.lu.se. Once the central timetabling has been completed, anyone can book premises via the online booking system.

To book the staff dining room or if you want to hold an event in the foyer, contact schema@lux.lu.se. Guidelines for the staff dining room are available on the intranet.

The LUX main auditorium is a University-wide premise and is also booked via Agnes Borg and Ulla Rönbeck at schema@lux.lu.se.

If your booking is outside the building’s regular opening hours (see above) you must also notify Agnes Borg (Agnes.Borg@ht.lu.se) in good time, so
that the security company can be notified. This applies to all activities in the building outside regular opening hours.

More information about timetabling and room booking can be found on the intranet.
