Joint Kick-Off for Two New Research Projects

Exploring Energy, Needs and Justice

20TH OF MARCH 2-4 PM, PUFENDORF IAS, BISKOPSGATAN 3, LUND

Join us to celebrate the launch of two new energy research projects

Projects:
“Navigating Justice Claims: Between Riots, Strikes and Business as Usual” - the aim is to map and analyse justice-claims raised by the transition to a fossil-free welfare state to facilitate a just transition.

“Sustainable welfare for a new generation of social policy” - the aim is to contribute to the development of new generation social policies that are both socially and ecologically sustainable by exploring the concept of needs.

Format:
After a short presentation of the two projects, the participants will discuss the social and political conditions necessary to facilitate a just transition to a low-carbon future.

Guest Speaker:
We welcome Ulf Jarnefjord as “critical friend” to the seminar. For decades, Ulf Jarnefjord has fought for climate action from the perspective of trade unions

The event ends with sparkling wine mingle in the beautiful Sculpturehall on the second floor.

We especially welcome stakeholders interested in these topics to join our discussions and for future collaborations.

Date: 20th of March
Time: 2-4 pm
Venue: Pufendorf IAS, Biskopsgatan 3, Lund
